

ThinTrim™ & ThinTrim Plus™

With brilliant details, including letter depth as shallow as 2", this exciting new product line is now available exclusively from Steel Art. Our ThinTrim™ and ThinTrim Plus™ offers many custom features. Both can be illuminated thru the face or if desired thru the back as well. Depending on letter height, the ThinTrim™ retainer lip is uniquely 1/8" wide bringing an architectural note to its appearance. Now the designer has the choice between plastic trim and higher end, mirror polished metals. Select the proper white acrylic (#2447 or #7328) or colored face, translucent PMS vinyl and LED combination and you have endless possibilities, including RGBW.
